The Be@School mission is to address barriers to school attendance for Hennepin County’s K-12 students and their families through early interventions which are collaborative and family-focused.
Notes about this report

Calculations to determine agency engagement percentages are based on data from BASIL. The number of total referrals sent to the agency is an unduplicated number. A case is defined as “open” if a signed release of information (ROI) form was uploaded into BASIL by the agency.

When combined, the number of reports for students ages 5-11 and 12-17 may not equal the number of total referrals sent to the agency. A case may change from one age group to another throughout the school year based on the student’s age at the date each report was submitted. For example, a student may be 11 years old at Report 1 but turn 12 years old by the time Report 2 is submitted.

Note about agency assignments

Students are generally assigned to agencies based on the school they attend. Agencies cover public school districts. Students who attend charter, online, or private schools are assigned to agencies based on the student’s home school district as determined by their home address. Be@School also considers agency specialties and family preference regarding language, gender, age, and culture. All agencies contracted by Be@School can serve all families within Hennepin County.
